

# AIR TOUCH 5

NEW ZEALAND'S SMARTEST WI-FI & APP  
ENABLED AIR CONDITIONING CONTROLLER

## Give your home the ultimate in comfort and energy efficiency!

Enhance your air conditioning with Air Touch 5, the controller to take care of your climate control from a touch screen, phone or tablet.

- **Control up to 16 zones\***. The perfect temperature in every room.
- **Heat or cool only where it's needed.**
- **Wireless sensors.** No wiring to worry about.
- **Smart home integration.** Connects to your Google Home and Alexa network.
- **Automatic control.** "Geofencing" turns the system on and off when you're home or away.

Air Touch 5 turns any home into an energy efficient, comfortable smart home and compatible with most ducted heat pump and air conditioning systems.

## HOW IT WORKS

- Wireless temperature sensors are placed in each zone.
- Motorised dampers control airflow to reach set temperatures in each zone.
- Sensors send real-time temperature data to the Airtouch 5 Controller.
- Based on zone temperatures and settings, dampers automatically open or close.
- If all zones close, spill zone outlets are automatically opened to prevent duct pressure build-up.

SPECIFICATION	DETAILS
Model Name	Airtouch 5
Size (Console)	7" Smart Display
Wireless Sensors	Battery-operated
Max Zones Supported	16*
Operating System	Android 11
Power Source	Mains power (for console) + batteries (for sensors)

**Talk to your HRV expert today about how this amazing technology can make your home even more comfortable and energy efficient.**

\*Standard configuration includes 8 zones.  
Expansion to 16 zones requires an extension module.
